

Base Database Service Arm - Enterprise Edition Extreme Performance - VM

All-in-One Datasheet (Beta) Produced by DBExpert

Overview

Oracle Enterprise Edition with maximum availability and security on one or two-node elastic VMs, managed using the Console, APIs, CLIs, Enterprise Manager, or SQL Developer. Enterprise Edition Extreme Performance (EP) includes all Oracle Database Enterprise Edition High Performance features plus Database In-Memory and Active Data Guard. All of the Base Database Service editions include Data Safe and Oracle Database Transparent Data Encryption (TDE)

Visit the <u>DB Expert Services Taxonomy page</u> to get the latest version of this data sheet and see data sheets for all of the Oracle Cloud Database services.

Deployment

Database Type	Single Database
Management Model	Co-managed PaaS
Supported Cloud Environments	Oracle Cloud Infrastructure
SKUs for starting configuration	B97199 (OCPU) or B97200 (OCPU BYOL) B91961 (DB storage) B91962 (DB storage performance units) B91628 (backup storage)
DB Versions Supported	Oracle 23ai (Long-term release), Oracle 19c (Long-term release)
Hardware Infrastructure	Shared General Purpose

Usage Models

Recommended Workloads	Analytics Blockchain Data Science / Machine Learning Data Warehouse / Data Mart Graph Mixed Workload (Transaction + Analytics) Transaction Processing (OLTP)
Recommended Data Models	Document Store (JSON) Document Store (XML) NoSQL Spatial Text

Caulified Ouesle Augliestieus	Cutavavias Daufavusausa Manasausaut
Certified Oracle Applications	Enterprise Performance Management
	(Hyperion) 11.2
	FLEXCUBE 14.7
	JD Edwards EnterpriseOne Tools 9.2.6 and
	later
	Oracle APEX
	Oracle E-Business Suite 12.1.3
	Oracle E-Business Suite 12.2.3 and later
	Oracle Fusion Middleware 14.1.2.0.0
	Oracle Primavera P6 EPPM Version 23
	PeopleSoft PeopleTools 8.62 and later
	Siebel Enterprise Server 25.2 and later

Capacity

Configuration Options	Base Database Service supports flexible shapes. When you create an instance using a flexible shape, you select the number of OCPUs that you require for the workloads that run on the instance. Flexible shapes let you customize the number of OCPUs allocated to the instance. This flexibility lets you build instances that match your workload, enabling you to optimize performance and minimize cost. The amount of memory allowed is based on the number of OCPUs selected, and the ratio of memory to OCPUs depends on the shape.
CPU Range	1 to 57 OCPUs
Shapes	VM.Standard.A1.Flex OCPUs: 1 to 57 Max DB TB: 40
CPU scaling	Offline
Storage scaling	Online
Max IOPs	8K: 640k
Max Throughput	5000 MBPs
Max Memory	8 GB per OCPU up to 512 GB

Availability

Nines of availability (may require configuration)	99.9 SLO
Oracle DB Maximum Availability Architecture	Bronze

oracle.com/dbexpert 16 Jul 2025 Page 2

medals (for OCI / Cloud@Customer deployments)	
Automated backups max retention	up to 95 days
Long-term backup retention (up to 10 years)	Yes

Functionality Included

Included Oracle DB Options for license-included service (*)	Active Data Guard Advanced Compression Advanced Security Database In-Memory Database Vault Label Security Multitenant Partitioning Real Application Testing Spatial and Graph
Included Oracle EM Packs for license-included service (*)	Cloud Management Pack for Oracle Database Data Masking and Subsetting Pack Database Lifecycle Management Pack for Oracle Database Diagnostics Pack Tuning Pack
Free Add-Ons (no extra licensing required)	Oracle APEX Oracle Data Safe Oracle GoldenGate 1) Limited Use Term License Promotion and 2) Oracle GoldenGate Database Migration Term (both available on Oracle Cloud Marketplace) Oracle REST Data Services (ORDS) SQL Developer Web

^{*}Check service documentation for feature availability and limitations

Multicloud Updates

Operational Controls

Allows installing additional software/agents on the host	Yes
Allows installing OS packages	Yes
Allows kernel changes	No
Allows OS runtime changes	Yes
Allows sysdba access	Yes
Oracle operator access control	No
Control DB patch level	Yes
Control DB release update (RU) level	Yes
Control DB version	Yes
Control maintenance window	Yes
Preview and Validate Patches for Zero-Regression SLO	No

Additional Information

oracle.com/dbexpert 16 Jul 2025 Page 4

^{*} New services and hardware generations are rolled out across regions, check your region for current status. (A) = Interconnect to Microsoft Azure available. (G) = Interconnect to Google Cloud available

Open Source DB	No
Delta Sharing / Cloud Links	No
Select AI to Generate SQL from Natural Language	No
Prompts	
Mongo-compatible API	Yes
Supports non-CDB home	No
