

All-in-One Datasheet Produced by DBExpert

Overview

Oracle Enterprise Edition with added security and performance options on an elastic VM, managed using the Console, APIs, CLIs, Enterprise Manager, or SQL Developer. Enterprise Edition High Performance (HP) includes all Oracle Database Enterprise Edition features plus Partitioning, Multitenant support for up to 4096 PDBs, Advanced Compression, Advanced Security, Life Cycle and Cloud Management Packs. All of the Base Database Service editions include Data Safe and Oracle Database Transparent Data Encryption (TDE).

Visit the <u>DB Expert Services Portfolio page</u> to get the latest version of this data sheet and see data sheets for all of the Oracle Cloud Database services.

Deployment

Database Type	Single Database
Management Model	Co-managed PaaS
Supported Cloud Environments	Oracle Cloud Infrastructure, Oracle Database@Azure and Oracle Database@Google Cloud
SKUs for starting configuration	B111587 (ECPU) or B111588 (ECPU BYOL) B111584 (DB storage) Backups - Oracle Database Autonomous Recovery Service - B95240 or Oracle Database Zero Data Loss Autonomous Recovery Service - B95241
DB Versions Supported	Oracle Al 26ai (Long-term release), Oracle 19c (Long-term release) (Oracle DB@Azure, Oracle DB@Google Cloud only)
Hardware Infrastructure	Shared General Purpose

Usage Models

Recommended Workloads	Analytics
	Blockchain
	Data Science / Machine Learning
	Data Warehouse / Data Mart
	Graph
	Mixed Workload (Transaction + Analytics)
	Transaction Processing (OLTP)

oracle.com/dbexpert 08 Nov 2025 Page 1

	Vector
Recommended Data Models	Document Store (JSON) Document Store (XML) NoSQL Spatial Text Vector
Certified Oracle Applications	JD Edwards EnterpriseOne Tools 9.2.9.3 and later Oracle APEX AI Application Generator Oracle E-Business Suite 12.2.7 and later Oracle Fusion Middleware 14.1.2.0.0 Oracle Value Chain Planning 12.2.7 and above PeopleSoft PeopleTools 8.62 and later Siebel Enterprise Server 25.2 and later

Capacity

Configuration Options	Base Database Service supports flexible shapes. When you create an instance using a flexible shape, you select the number of ECPUs that you require for the workloads that run on the instance. Flexible shapes let you customize the number of ECPUs allocated to the instance. This flexibility lets you build instances that match your workload, enabling you to optimize performance and minimize cost. The amount of memory allocated is based on the number of ECPUs selected.
CPU Range	4 to 256 ECPUs in increments of 4
Shapes	VM.Standard.x86 ECPUs: 4 to 256 Max DB TB: 40
CPU scaling	Offline
Storage scaling	Online
Max IOPs	8K: 640k
Max Throughput	5000 MBPs
Max Memory	8 GB per 4 ECPUs up to 512 GB

Availability

Nines of availability (may require configuration)	99.9 SLO
Oracle DB Maximum Availability Architecture medals (for OCI / Cloud@Customer deployments)	Bronze
Automated backups max retention	up to 95 days
Long-term backup retention (up to 10 years)	Yes

Functionality Included

Included Oracle DB Options for license-included service (*)	Advanced Compression Advanced Security Database Vault Label Security Multitenant Partitioning Real Application Testing Spatial and Graph
Included Oracle EM Packs for license-included service (*)	Cloud Management Pack for Oracle Database Data Masking and Subsetting Pack Database Lifecycle Management Pack for Oracle Database Diagnostics Pack Tuning Pack
Free Add-Ons (no extra licensing required)	Oracle APEX AI Application Generator Oracle Data Safe Oracle GoldenGate 1) Limited Use Term License Promotion and 2) Oracle GoldenGate Database Migration Term (both available on Oracle Cloud Marketplace) Oracle REST Data Services (ORDS) SQL Developer Web

^{*}Check service documentation for feature availability and limitations

Multicloud Updates

Operational Controls

Allows installing additional software/agents on the host	Yes
Allows installing OS packages	Yes
Allows kernel changes	No
Allows OS runtime changes	Yes
Allows sysdba access	Yes
Oracle operator access control	No
Control DB patch level	Yes
Control DB release update (RU) level	Yes
Control DB version	Yes
Control maintenance window	Yes
